

The Globe-Trotting Founders of Explorers curated the original decor with treasures collected during their travels. While re-imagining Explorers, we toured the world's myriad cuisines in search of a new concept for our fabled room. Finally, we stumbled upon a select group of establishments, "The American Gastropub".

We heard from you, our guests, that you wanted great food and great drinks in a casual yet upscale setting. Originally hailing from the British Isles, a gastropub balances the importance of delicious food with a creative drink menu all in a comfortable atmosphere.

This was a perfect match.

With exploration as our "true north" we offer comfort food with a bit of culinary flair, indigenous ingredients, locally sourced beers and craft spirit-based cocktails.

We strive to bring you the best our region has to offer and with service to match. And as they say in the Isles...

"May your glass be ever full, may the roof over your head be always strong, and may your belly be eternally full from your latest adventure at Explorers!"

Traditional
