

The Globe-Trotting Founders of Explorers curated the original decor with treasures collected during their travels. While re-imagining Explorers, we toured the world's myriad cuisines in search of a new concept for our fabled room. Finally, we stumbled upon a select group of establishments, "The American Gastropub".

We heard from you, our guests, that you wanted great food and great drinks in a casual yet upscale setting. Originally hailing from the British Isles, a gastropub balances the importance of delicious food with a creative drink menu all in a comfortable atmosphere.

This was a perfect match.

With exploration as our "true north" we offer comfort food with a bit of culinary flair, indigenous ingredients, locally sourced beers and craft spirit-based cocktails.

We strive to bring you the best our region has to offer and with service to match. And as they say in the Isles...

*"May your glass be ever full, may the roof over your head be always strong, and may your belly be eternally full from your latest adventure at Explorers!"*
